

PRESS INFORMATION for immediate release

ORIENT STAR “CLASSIC”

ORIENT WATCH CO., LTD released ORIENT STAR “CLASSIC” in December 2012.

One of the most distinguished brands of ORIENT WATCH, ORIENT STAR, that was first created in 1951. The mechanical watches are simple but feature an exquisite style, worthy of the brand name with its celestial connotations. The lineup offers a diverse selection of products, featuring solid technologies all backed by its history, and designs that reflect the care take with every detail.

Our latest ORIENT STAR “CLASSIC” is a range of mechanical watches that each have an elegantly domed dial combined with a box crystal glass to create an air of refined quality. The simple bar index and clear hands of these watches enhance their readability, accent their antique aesthetic and is a design one will never tire of.

This watch has been formed with antique style elements, a style in vogue worldwide, and combine slender lugs with a case. The case is sized a convenient 38.5 mm that fits comfortably onto the wrist and is rendered in a bewitching modern-antique style. The design of the watch is versatile enough for multiple situations.

The range includes models with a simple and refined metal bracelet as well as models with a chic leather strap which compliments the antique style dial perfectly.
